# CDC recommends HIV screening for all patients ages 13 to 64

**HIV crosses the boundaries of sexual orientation, gender, age, and ethnicity.**

- More than 1.2 million people in the United States now have HIV, and approximately 1 in 8 are unaware of their infection.
- Blacks represent approximately 12% of the U.S. population, but account for 44% of HIV diagnoses.
- If current diagnosis rates continue, an estimated 1 in 20 black men and 1 in 48 black women will be diagnosed with HIV infection in their lifetime.

## *A Message from the President*

Dear Colleagues

Greetings and welcome to Los Angeles and the **114th Annual Convention and Scientific Assembly** of the **National Medical Association (NMA)**. It has been twenty-eight years since we last convened here in Los Angeles (LA), the **City of Angels** and **Entertainment Capital of the World**. In LA you will find everything from historic landmarks and treasured monuments to world class shopping and art and culture. LA is the center of the motion picture industry and has a diverse economy in entertainment, culture, media, fashion, science, sports technology, education, medicine, and research.

As the 116th President, I am honored and privileged to extend greetings to all attendees of this event. The Los Angeles Convention Center is the preeminent destination for meetings, conventions and special events. Its unique design, with a map of the world centered on the Pacific Rim covering the entire floor of the main lobby and a map of the constellations around the north celestial pole covering the floor of the upstairs lobby, creates a setting of ambiance and a magnificent stage for successful meetings. The NMA leadership, augmented by our dedicated staff led by the Executive Director, Martin Hamlette and the Lead Convention Planner, Yolanda Fleming, has provided exceptional support and planning strategies throughout the year to culminate in a robust, relevant and exciting program.

This year's convention theme is **True North Toward Health Care Equity: Clinical, Policy and Social Determinants**. During the convention experts will address many of the issues facing patients, healthcare providers, communities, and the Nation. There will be ample opportunities to collaborate and share with stakeholders and examine research findings that focus on clinical policy and social determinants of health which impact opportunities for individuals to earn a good living, live and work, and effectively use available social services and healthcare resources so as to optimize diagnosis, management and disease prevention.

I invite everyone to participate in our signature events beginning with the Saturday morning session entitled "Innovations in Healthcare Delivery." Every medical provider in the United States has experienced the rapid changes in health systems and the health care industry. Therefore, understanding the guidelines and strategies of the transformational changes in healthcare is imperative. The **Mazique Symposium** will focus on Concussion and Chronic Traumatic Encephalopathy in Professional Athletes. The **Opening Awards Ceremony** will be held on Saturday, August 30th where the accomplishments of NMA members will be recognized, including special awards and awards for NMA members who are currently serving or have previously served in the military.

Other events include the **Plenary Session** entitled "Improved Survival in Cancer Yet Continued Disparities: From the 1971 Cancer Act Through Moonshot 2016," the ANMA/NMA prayer breakfast, the CCWP luncheon, and sessions to address "Increasing the Medical School Pipeline," "What Every Physician Should Know About Sickle Cell Disease," and "Gun Violence and its Impact on Healthcare." Additionally, all 24 subsections have exciting program throughout the convention on various disease entities and healthcare topics. The Exhibit Hall will also feature information on many products and industry collaborators. These are only a few of the many exciting and empowering events that have been planned throughout the duration of the meeting.

I am most appreciative of the honor and privileged of the opportunity to have served as your 116th President. I thank the NMA leadership, Chair and Board of Trustees, Past President's Council, Cobb Institute, committee members, Section Chairs, Auxiliary to the National Medical Association, members of the Corporate Circle, Thomas Jefferson University, other corporate sponsors, and all who have given me support and contributed to the NMA during this year.

It is our breaking of silos and working together that has increased the momentum and validated the position of the NMA in healthcare in this country. **God bless the United States of America and God bless the National Medical Association.**

With Gratitude,

Edith P. Mitchell, M.D.

Dear Friends:

On behalf of the City of Los Angeles, it is my sincere pleasure to welcome the National Medical Association for your 114th Annual Convention and Scientific Assembly.

Los Angeles is proud to host the nation's preeminent forum on African-American health, attracting medical scholars, practitioners, administrators, and allied health professionals from around the country.

No other city in America offers such unique diversity. The pulse of our city and the heart of our culture beats in 224 languages so all who visit may truly feel at home. Framed with our iconic palm trees, our vibrant city features world-class hotels, renowned restaurants, historic landmarks, legendary museums, countless attractions, and unending recreational opportunities stretching from our golden beaches to our picturesque mountaintops.

Los Angeles is the perfect setting to welcome the National Medical Association to connect individually and build collectively. We hope that all of the attendees enjoy all that Los Angeles has to offer and have a highly successful convention.

Thank you for choosing Los Angeles!

Sincerely,

Dear Friends,

I am proud to welcome the National Medical Association and its members from across the country to Los Angeles for the organization's 114<sup>th</sup> Annual Convention and Scientific Assembly. I would especially like to welcome the many distinguished speakers and panelists.

The National Medical Association is the nation's oldest and largest organization of predominantly African American physicians. With 112 affiliate societies throughout the United States and U.S. Territories, it represents the interests of more than 30,000 African American physicians and the patients they serve.

Each year, these doctors and other health professionals from across the country convene to participate in the scholarly exchange of medical advances, to discuss health policy priorities, and to share experiences through networking opportunities. Through NMA's twenty-six Scientific Specialty Sections and Interest Groups, the Convention works hard to attract the broadest spectrum of African American physicians, academicians and scientists in the country.

I appreciate NMA's efforts to address health disparities across the country, and I applaud its mission to improve the quality of health among minorities and underserved communities.

You have my best wishes for a memorable event!

Sincerely,

## NMA Membership

### OUR MISSION

*"To advance the art and science of medicine for people of African descent through education, advocacy, and health policy to promote health and wellness, eliminate health disparities, and sustain physician viability"*

Since its inception in 1895, the National Medical Association (NMA) has represented the specific interests of African-American physicians and their patients. Today, the collective talent and dedication of the membership allows the NMA to continue as the conscience of American medicine by working to eliminate disparities in health care. NMA remains committed to improving the quality of health among minorities and disadvantaged people through its membership, professional development, community health education, advocacy, research, and partnerships with federal and private agencies.

### Each Member Matters

Medical care for the disadvantaged and minority communities remains substandard, highlighting the historical gaps in the level of service based on minority patients receiving less than adequate care. We read and hear about them on the news and recognize them in trends outlined in various studies. However, there is the other side of the story. For each negative anecdote, there is an instance where a physician made the remarkable difference by using the network and resources of the NMA to improve the quality of the life of a patient. It may have been by referring the patient to one of our community-based programs, using information published in the JNMA or simply networking with other NMA members about the case. That member mattered – to the patient, their loved ones and their community.

The strength of the NMA remains the shared commitment of all members. Each professional touches the lives of hundreds of patients every year as a health care professional, researcher, teacher or mentor. Those collective experiences bring a unique perspective to the field and practice of medicine. Become a member of the NMA and witness how your personal experience can have a much greater impact- as an example of to your peers, a force of change in your community or furthering critical research that levels the field.

### BE A PART OF OUR MISSION

Here are **FIVE REASONS WHY YOU SHOULD BE A MEMBER** of the National Medical Association:

1. **Pride and Leadership** – The NMA has more than a hundred years of fighting against health disparities within African American and minority communities, as well as promoting the importance of African American physicians in health care.
2. **Advocacy** – The NMA has historically been an unwavering advocate for health policies that improve the quality and availability of health care for African Americans and other underserved populations.
3. **Community Outreach** – We have always been committed to prevention, wellness and promoting a healthy lifestyle among our members and the communities we live in. NMA conducts national consumer education programs on cancer, HIV/AIDS, diabetes, obesity, cardiovascular disease, stroke and other health issues impacting our communities.
4. **Education** – Our robust Continuing Medical Education programs for the Annual Convention and Scientific Assembly, Regional and State and Local Society meetings are developed and comprised by our 25 Scientific Specialty Sections.
5. **Scholarly Exchange** – *The Journal of the National Medical Association* has been published since 1909 with a special emphasis on the application of medical science to improve health care. The articles contained in the journal provide a vehicle for publishing scholarly papers and articles from leading scientists from around the world. The topics covered provide insight into some of the most relevant and current health care issues that we all face.

National Medical Association 2016 Annual Convention and Scientific Assembly

## Continuing Medical Education

### Who Should Attend

The 2016 National Medical Association's Annual Convention and Scientific Assembly is planned as an educational reinforcement for practicing physicians, related health professionals, trainees and residents representing a variety of medical specialties and health professions.

### Format

Workshops "hands on" activities and seminars addressing critical concerns of medical specialists will be held on Saturday and Sunday. Lectures, panels, and demonstrations will be provided throughout the week. Guest health care provider lecturers from leading institutions, National Medical Association physician experts, basic scientists, and residents and students in competition will bring to the Assembly current management of diseases confronted in today's medical practice.

### Program Objectives

The scientific activity is designed to provide educational enrichment through special sessions, postgraduate courses and specialty sessions from twenty-four separate specialties. In-depth review of updated diagnostic methods and therapeutics will be discussed in an effort to prepare the participating physician for current medical practice in his/her field of specialty. Combined specialty sessions will provide opportunities for exchange of ideas and debate.

### Educational Credits

The National Medical Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical Education for physicians.

The National Medical Association designates this live activity for a maximum of **40 AMA PRA Category 1 Credits™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The following U.S. state licensing required subjects will be presented during the scientific assembly activities:

- Care of the Terminally Ill
- Child Abuse
- Cultural Competency
- Family Abuse

- HIT/EMR
- HIV/AIDS
- Mammography
- Medical Ethics
- Opioids
- Pain Management
- Practice Management
- Risk Management

### Disclosure

Lecturers, panelists, and planning committee members have disclosed relationships with commercial organizations. These relationships are also to be disclosed by the lecturer at the time of presentation.

**OFF LABELED DRUGS:** All speakers must acknowledge the status of drugs discussed and not approved for in-patient care.

### CME Certification Registration

All scientific sessions throughout the week are open to registered convention participants. However, pre-registration may be required for special workshops.

"On-Site" credit claim forms will be available only by request. On-site credit forms must be signed by the section chair or his/her designee. Please be sure to keep the original copy of the "On-Site" credit form for your records and submit one copy to the section chair or his/her designee. A certified credit certificate, signed by the CME Director, will be sent to you in approximately 30 days post activity.

All credit hours will be awarded to the registrant based on:

- Full Payment of Assembly Registration
- Session Attendance
- Completed Evaluation

Failure to meet these requirements may result in denial of credit award.

## General Sessions

### Symposium on Diversity, Inclusion, and Equity in the Healthcare Arena: Does Race Matter?

*(Presented in partnership with the David Geffen School of Medicine at UCLA)*

**SATURDAY, JULY 30**

**8:30 am – 10:15 am**

**LA Convention Center, Petree Hall**

This is a multi-disciplinary panel discussion of the various issues that are encountered, and the solutions that are sought, by medical and healthcare institutions and organizations dealing with faculty, staff, and student diversity problems of inclusion and retention, and attempts to achieve equity for patients as well as providers in healthcare delivery. The question of race, culture, and ethnicity in these deliberations underlies the discussion.

Following introductions, conflict of interest disclosures, and objectives, each panel member will provide an evidence –based presentation followed by a question and answer period involving presenters and audience. Evaluations will be conducted at the conclusion of the program.

### *Improved Survival but Continued Disparities in Cancer: The 1971 National Cancer Act through Moonshot 2016*

**SUNDAY, JULY 31**

**9:00 am – 11:00 am**

**LA Convention Center, Theater 411**

It is estimated that more than 1.6 million people in the United States will be diagnosed with cancer in 2016, with over 580,000 estimated cancer deaths. The treatment of patients with cancer is constantly evolving, with continued advancement in diagnosis and treatment of solid tumors and hematologic malignancies. Despite significant improvements in therapeutic management and decreased mortality in many tumor types, not all patients benefit equally from these successes. Disparities exist in cancer incidence rates and survival outcomes for several malignancies, including non-small cell lung cancer (NSCLC), gastric, pancreatic, hepatocellular, and colorectal cancers (CRC), multiple myeloma and breast cancer. Clinicians

should be aware of not only the most current treatment options for these particular cancers, but also the implications these disparities can have on cancer care delivery. Providers should be aware of the national programs and resources that are available to improve patient access to cancer care and be informed of novel therapeutic approaches and new methods to eliminate disparities in treating patients with cancer leading to timely and comprehensive care for their patients. During this symposium, participants will learn the implications of disparities on the screening, diagnosis and treatment of patients with cancer and employ available resources that can overcome these disparities with appropriate interventions.

## The Satcher Health Leadership Institute Morehouse School of Medicine

*“Forget Me. Not: Community Based Alzheimer’s Education”*

**WEDNESDAY, AUGUST 3**

11:00 am – 1:00 pm  
LA Convention Center, Room 501A

“Forget Me Not” is an award-winning play by Garrett Davis that has been performed around the country with a unique format that includes a panel discussion between acts to inform and engage the audience in discussion about Alzheimer’s risk, diagnosis, treatment, and research with academic and community providers as well as patients and advocates.

In 2015, the Forget Me Not Project held events in five American cities: Atlanta, Chicago, Houston, Indianapolis and Tampa. In an analysis of surveys that were administered at each event, a majority of the audience agreed that they have a better understanding of why older African Americans need to get involved in Alzheimer’s research after attending the event and that they would like to learn more about clinical trials. The Satcher Health Leadership Institute and the African Americans Against Alzheimer’s are partnering with Mr. Davis to develop a discussion guide and educational workbook to provide a resource to community providers and advocates to promote awareness and collective action to eliminate disparities that exist among African Americans.

In our presentation, we will review the predominant issues related to Alzheimer’s disparities, engage the audience in an interactive experimental educational simulation to demonstrate the value of community based education efforts using this medium.

*By the end of this presentation, the participant’s will be able to:*

1. Identify the disproportionate burden of Alzheimer’s and caregiving among African Americans, and the role the community provides in addressing related health disparities
2. Understand the utility of using Forget Me Not DVD in promotion community education about Alzheimer’s disease by reviewing survey findings and viewing clips of the play followed by a small group discussion.
3. Explain how support ongoing efforts to raise community awareness, action and existing online resources for communities of color.

## **Telehealth: Expanding Health Equity and Access to Care**

**WEDNESDAY, AUGUST 3**

**1:00 pm – 2:00 pm**  
**LA Convention Center, Petree Hall**

Minorities and other underserved populations face many barriers including lack of access to healthcare and medical specialists. These barriers often lead to disparities in health and healthcare outcomes. This session will provide a comprehensive overview of what telehealth is and how physicians can use it to close the health equity gap.

## Joint Sessions

### **Improving Chronic Obstructive Pulmonary Disease Outcomes with Early Clinical and Biomedical Interventions**

Saturday, July 30 • 7:30 AM – 12:00 PM

#### **LA Convention Center, Room 502-B**

This session will review the updated GOLD Guidelines for the treatment of stable chronic obstructive pulmonary disease (COPD), and will include the concepts of symptoms and risks into the decision of therapy. Additionally, Asthma COPD overlap syndrome will be defined, and alpha one antitrypsin deficiency and its relationship to the development of COPD will be discussed.

### **Strategies to Achieve Better Clinical Outcomes in Type 2 Diabetes and Its Medical Complications**

Sunday, July 31 • 2:00 PM – 7:40 PM

#### **LA Convention Center, Room 502-B**

This general session will provide an up-to-date review of current recommendations regarding screening and treatment strategies for type 2 diabetes; emphasize diagnosis and therapeutic approaches to achieve better glycemic control in African Americans and other at-risk patient populations; and will address approaches to prevent and treat microvascular and macrovascular complications of diabetes. Additionally this session is designed to equip physicians and other health care providers with the latest tools and strategies available to prevent, diagnose, and treat diabetes complications.

### **Managing Pain and Adverse Events in Vulnerable Patient Populations**

Monday, August 1 • 1:00 PM – 4:00 PM

#### **LA Convention Center, Room 402-AB**

This session will present multi-modality pain treatment options for difficult sub-patient populations designed for physicians from diverse medical specialties. Balancing pain management in primary care and other medical specialty therapeutic areas are the underpinnings educational activities. This is instructionally appropriate because research indicates that many primary care physicians are at the center of a national prescription opioid epidemic, with little training or knowledge about the management of patients on opioids for CNCP.

### **Synchronizing Mental Health Care to Improve Psychiatric and Primary Care Clinical Outcomes**

Tuesday, August 2 • 7:30 AM – 11:00 AM

#### **LA Convention Center, Room 402-AB**

This session will discuss the role of long-acting injectable antipsychotics (LAIs) and other advancements for community-based treatment of schizophrenia, differential diagnosis and treatment of depression, and the early and accurate diagnosis and management of Parkinson's Disease.

### **CDC Act Against AIDS Listening Session**

Tuesday, August 2 • 1:30 PM – 3:30 PM

#### **LA Convention Center, Room 512**

Join us as the CDC unveils some of its latest HIV prevention communication materials for health care providers. These include resources on HIV testing and Pre-exposure Prophylaxis. We welcome attendees to join us in this interactive session to share your thoughts and insights.

### **Prescribing Exercise and other Interventions to Improve Outcomes in Obesity**

Wednesday, August 3 • 8:00 AM – 11:00 AM

#### **LA Convention Center, Petree Hall**

This joint session is designed to educate Family medicine physicians and Internists on available interventions to improve outcomes in obese populations. It also has the goal of increasing physician comfort level in treating obesity as a chronic disease with emphasis on exercise as a core intervention.

## 2016 Camp NMA-zing Youth Program Activity Descriptions

The **Natural History Museum of Los Angeles** offers a collection from the natural world that's sure to entertain kids and adults alike. It is the oldest and largest natural history museum in the western United States, with more than 33 million items ranging from actual, full-size dinosaur skeletons and meteorites from Mars to the live insect zoo and the largest collection of gold in the United States. Highlights include the Dinosaur Hall, the Gem and Mineral Hall, the Insect Zoo, animal habitats from Africa and North America and the hands-on Discovery Center.

The **Hollywood Open Bus Tour** takes us on a bus ride through Hollywood and Beverly Hills. We'll see where stars live, shop and party; admire mansions of today's hottest celebrities and legends; and stop for photo ops at renown locations like the Hollywood sign.

The **Hollywood Walking Tour** takes us down the Hollywood Walk of Fame to various iconic spots like the Chinese Theatre, Dolby Theatre, Jimmy Kimmel Live, Kodak Theatre, and more.

**OUE Skyspace LA** is California's tallest open-air observation deck and the premiere destination for panoramic, 360-degree views of Los Angeles.

**Ina Buckner-Barnette**, The Sunshine Storyteller, brings to us her Kaleidoscope Show, filled with an exciting and humorous mix of participatory international folktales, movement activities, songs, poetry and personal stories. Positive, character-building stories with an interactive twist are her trademark. Ina's performance incorporates dance and song to help transport listeners on a magical story journey.

The **Grammy Museum** pays tribute to music's rich cultural history. This 21<sup>st</sup> century museum explores and celebrates the enduring legacies of all forms of music, the creative process, the art and technology of the recording process and the history of the premier recognitions of excellence in recorded music – the Grammy award. Through public and educational programs, exhibits and more, we will experience an insider perspective that only The Grammy Museum can deliver.

**BubbleMania** brings to us a show on the science and entertainment of bubbles with shimmering waves of soap films, rainbow bubbles, bubbles of all shapes and sizes, bouncing bubbles, and the grand finale where kids get the chance to be inside of a gigantic bubble! Bubbologists will teach us about reflection, refraction, surface tension and many other soap bubble properties.

Enter the fanciful world of **Luce Puppet Company**, which offers kids a chance to stretch their imaginations. Elizabeth Luce presents delightful hand and rod puppet shows performed on a colorful puppet stage with sound system, sets, curtains and lights. Luce brings to us a show and puppet-making workshop.

**Project Sun** is an annual event conducted by the Auxiliary to the National Medical Association (ANMA) for youth, ages nine and up.

**African Drum and Dance** presented by CHAZZ and Teresa is a colorful and exhilarating experience into the world of African rhythms, songs and stories. The audience will enjoy this lively presentation as either part of the drum circle or as part of the dance troop. Everyone will feel the rhythm of the Serengeti sun as their simple drumbeats create a pulse that holds the music and dance together.

**Michael McCarty** is an internationally acclaimed storyteller who presents school assemblies on African and African-American stories, international folktales, historical tales, stories of science, spiritual stories as well as stories of the brilliant and absurd things he has done in his life. His storytelling plays a valuable role in developing literacy, educating children about history and exploring multiculturalism.

**Knott's Berry Farm** offers dozens of rides, shows and attractions. Experience world-class thrills on Silver Bullet, the park's first-ever suspended coaster, or Sierra Sidewinder the spinning coaster that offers a panoramic view. Hop on board the Pony Express – The Ride, delivering a horseback relay at speeds never imagined in the Old West. For something different, detour to the Park's Old West Ghost Town or visit Camp Snoopy, home of the Peanuts gang and filled with kid-sized adventures. The newest is a 4D ride Voyage to the Iron Reef, on which brave deep sea navigators embark on a voyage that combines the fun of a theme park ride with the interactivity of high tech video games.

The **California Science Center** is a dynamic destination where families, adults and children can explore the wonders of science through interactive exhibits, live demonstrations, innovative programs and awe-inspiring films. The facility includes four major exhibit areas – World of Life; Creative World; Ecosystems; and Space Shuttle Endeavor, one of the most advanced transportation systems ever created. Exhibits include over 100 hands-on science exhibits in immersive environments.

The **California African American Museum** exists to research, collect, preserve and interpret for public enrichment, the history, art and culture of African Americans. The museum conserves more than 3,500 objects of art, historical artifacts and memorabilia and provides a variety of enriching, entertaining and enlightening learning experiences. The museum serves as a resource for diverse communities and to broaden public awareness of the artistic, historical and cultural contributions of African Americans.

**Astro Adventures**, an outreach program presented by California Science Center educators, allows children to experience all the excitement of being in space! Learn about the forces, temperatures, and pressures that astronauts have to overcome to get to and survive in space. Children will enter a 25' x 13' Science Dome to watch a Planetarium Show and Build their very own rockets.

The **Camp NMA-Zing Teen Dance**, for ages 12 and up, is an on-site dance party for youth to unwind, express imagination and artistry, and celebrate with their friends. A live DJ, lighting effects, dance contests and more will make this last evening of camp one to remember.

Tee time! Nestled at the base of the Angeles National Forest and the only Nicklaus Design golf course in Los Angeles County, Angeles National Golf Club sets the standard of excellence and beauty for all golf courses in Southern California.

Angeles National features an 18-hole, par 72-championship golf course with magnificent views, generous fairways and immaculate emerald greens. The course presents a challenge for golfers of all skill levels with four sets of tees accommodating both the professional and beginner golfer. The course was ranked by *Travel + Leisure Golf* magazine as one of the Top 30 Best New Courses Worldwide and One of the Top Ten Best New Public/Resort courses in the U.S.

*Round-trip transportation provided from the J.W. Marriott Hotel. Includes green fees, golf cart, bucket of balls, tournament services, breakfast and lunch.*

## THE ULTIMATE L.A. CITY TOUR

Saturday, July 30, 2016

8:30 am – 4:00 pm

**Cost: \$85 / \$95**

Welcome to Los Angeles! We have designed a full day tour just for you to experience the best that LA has to offer. See Santa Monica, Venice Beach, Downtown Los Angeles, Hollywood, The Hollywood Sign, Griffith Park, Hollywood Walk of Fame, Beverly Hills, Rodeo Drive, Bel Air, Sunset Strip, Movie Stars' Homes and more. You will not miss a thing on this tour!!

*Round-trip transportation provided from the J.W. Marriott Hotel. Lunch on your own at the Farmer's Market.*

## ANMA's PRESIDENT'S DINNER CRUISE

Sunday, July 31, 2016

4:45 pm – 10:45 pm

**Cost: \$150 / \$160 (cash bar)**

Come aboard the "Entertainer," we're expecting you! Posh in both amenities and appearance, the Entertainer is right at home among the other multi-million dollar yachts sailing southern California waters in the Marina Del Rey area.

You will enjoy an **exclusive** buffet dinner in her two spacious, fully enclosed decks, as you cruise the Pacific Ocean. Then, dance the night away with familiar sounds that will bring back cherished memories. When night falls, the open-air observation deck and aft deck are perfect for a stroll and quiet conversations under the stars.

*Round-trip transportation provided from the J.W. Marriott Hotel.*

## SCHOLARSHIP JAZZ LUNCHEON

Monday, August 1, 2016

12:30 pm – 3:00 pm

**Cost: \$120 / \$130**

Please join us and support our annual scholarship luncheon where a portion of the proceeds provide medical scholarships to third-year students attending the four historically Black medical schools: Meharry, Charles Drew, Howard, and Morehouse. Enjoy an afternoon of good food, finger popping and toe tapping jazz, and great conversations. The event will feature one of our very own, Dr. Richard Allen Williams, President-elect of the National Medical Association.

Come prepared to participate in our silent auction with beautiful artwork and more!

MetroHealth  
is proud to support  
the National Medical  
Association 2016  
Annual Convention and  
Scientific Assembly.

Camie Wright, MD, MBA'16

For OB/GYN Cameul Wright, putting patients first means demanding more from herself, understanding the financial decisions, managing costs and making the business case for quality care.

That's why she chose the Kelley Business of Medicine MBA at Indiana University – a 21-month program from a top-ranked business school. It's designed exclusively for physicians with a curriculum at the intersection of medicine and business.

# Lilly Patient Assistance Programs

## HELPING PEOPLE IN NEED BEGINS RIGHT HERE.

Do you have patients who have been prescribed Lilly medications but they cannot afford them because they're uninsured or underinsured? If so, Lilly may be able to help.

The Lilly Patient Assistance Programs is a collection of diverse patient assistance programs created to give people access to the Lilly medications they need. Using the website or call center, you can access detailed information about our programs and find answers to your questions about eligibility.

Learn more about eligibility, programs, and products:

Visit **Doctors with Dignity**  
at NMA 2016  
**Booth 716**

Doctors for Dignity advocate for the right to choose from a full range of end-of-life options, including aid in dying. We speak out to increase awareness of end-of-life issues and change law and policy. Our members support patient autonomy to control one's own death.

Our other objectives include:

- Establishing a national network of physician support, collaboration and advocacy
- Informing elected officials on the importance of all end-of-life choices
- Advising physicians on advance planning and aid in dying
- Educating the public by writing letters, speaking at events or testifying for death-with-dignity bills

Policymakers and medical associations will listen only if many of us speak out. Please declare yourself a Doctor for Dignity by signing up today. Please contact Rebecca Thoman, MD at 303.217.2081, email [doctorsfordignity@compassionandchoices.org](mailto:doctorsfordignity@compassionandchoices.org) or visit [CompassionAndChoices.org](http://CompassionAndChoices.org).
