A MESSAGE FROM THE PRESIDENT

Dear Colleagues,

As the 118th President, I am honored and privileged to extend greetings to all attendees of the 116th Annual Convention and Scientific Assembly of the National Medical Association (NMA). This year's convention theme is The Urgency of Now: Creating a Culture of Health Equity, it brings together the culmination of a year of collaboration with other professional organizations, disease associations, industry, civic organizations, advocacy groups and faith-based organizations to develop a framework for health equity in the African American community. During the convention experts will address many of the health inequity issues facing patients, healthcare providers, communities, and the Nation. There will be ample opportunities to collaborate, network, and dialogue with stakeholders. We will examine research findings that focus on social determinants of health and the needed health policies. Such policies can impact the ability to live and work in a clean environment, earn a good living, have access to nutritious food, high quality healthcare and effectively use available social services and healthcare resources to optimize disease prevention, diagnosis, management, and improve health outcomes.

I invite everyone to participate in our signature events beginning with the Saturday morning sessions. Every medical provider in the United States has experienced the impact of rapid changes in the health systems and the health care industry. Therefore, awareness and understanding the strategies imposed by new guidelines and the transformational changes in healthcare from cutting edge research is imperative. The Mazique Symposium will focus on "Mentoring and Increasing the Medical School Pipeline". The Opening Awards Ceremony held on Saturday, August 11th where the accomplishments of NMA members will be recognized, including special awards and recognition of the achievements of our young physicians. Other events include the Sunday Plenary Session entitled "The Hidden Dimension on American Racism: Surviving While being Black in America," and "Transforming Health Equity through Technology", the ANMA/NMA prayer breakfast, the CCWP luncheon, and sessions to address the opioid crises and gun violence. Additionally, all 26 sections have exciting program throughout the convention on various disease entities and healthcare topics. The Exhibit Hall will also feature information on many products and industry collaborators. These are only a few of the many exciting and empowering events planned throughout the convention.

It is the cultural concept of extended families that embodies the historical spirit of the National Medical Association. Likewise, it is through our extended partnerships with professional organizations (medical and non-medical), industry, government, corporations, and advocacy entities dedicated to health and health services that our shared vision for the highest quality of life for all people will come to fruition. I thank the NMA leadership, Chair of the Board, Past President's Council, Board of Trustees, NMA Cobb Institute, committee members, Section Chairs, Auxiliary to the National Medical Association, members of the Corporate Circle, other corporate sponsors, my family and friends, and all who have given me support and contributed to the success of the NMA during this year.

God bless the United States of America and God bless the National Medical Association.

With Much Gratitude,

A handwritten signature in black ink that reads "Doris Browne". The signature is fluid and cursive, with the first name "Doris" being more prominent.

Welcome! On behalf of the City of Orlando, it is my pleasure to welcome The Central Florida Medical Society & National Medical Association Members to The City Beautiful.

Your 116th Annual Convention and Scientific Assembly is set in the heart and soul of Central Florida. From a bustling center of commerce boasting a diverse set of industries, to its fine restaurants, first-rate hotels, awe-inspiring art galleries and museums, Orlando has so much to offer.

I invite you to explore Downtown Orlando during your visit. Our Downtown is currently experiencing a cultural arts-and-entertainment renaissance through the development of three state-of-the-art community venues, the new Amway Center, a world-class performing arts center and an upgraded Camping World Stadium. Downtown is also home to a new Major League Soccer stadium for our Orlando City Lions. These modern arts, entertainment and sports venues will serve as the cornerstone for our region for generations to come.

Orlando's warm and sunny weather also makes our region perfect for enjoying biking, boating, kayaking, fishing and hiking. Beaches are less than a one-hour drive.

Orlando offers a winning combination of economic, cultural, educational opportunities and an incredibly high quality of life for residents and visitors. Again, welcome and best wishes for a successful convention.

Sincerely,

Buddy Dyer
Mayor

Greetings to Members of the National Medical Association:

As Mayor of Orange County, it is my sincere pleasure to welcome you to the 116th Annual Convention and Scientific Assembly. We are honored that Orlando and the beautiful Rosen Shingle Creek Resort were chosen to host this event.

As you enjoy your time in Central Florida, I encourage you to see everything our region has to offer. You will quickly discover why we continue to be the No. 1 vacation destination in the nation with more than 72 million visitors in 2017. With our beautiful "Florida sunshine" providing the backdrop, you can discover our exciting theme parks, great cities and towns, excellent shopping opportunities, and relaxing parks and recreational amenities while experiencing superior hospitality and welcoming residents. These reasons, among many more, make Orange County a great place to live, work and raise a family.

Our region is also home to top-rated higher education institutions, the second largest convention center in the nation, and a burgeoning community of biotech, life sciences and research facilities that have been recognized around the world for their innovation and success. We are very proud of being a major international destination.

I hope you enjoy all of the opportunities at this year's convention, and I wish continued success for the National Medical Association!

Sincerely,

Teresa Jacobs

Greetings!

It is my honor to welcome you to the **116th Annual Convention and Scientific Assembly** presented by **National Medical Association (NMA)** and the **Central Florida Medical Society (CFMS)**. I am confident that this year's conference, themed "The Urgency of Now: Creating a Culture of Health Equity," will build on the successes of previous years.

For decades, NMA and CFMS has provided a platform for African American health professionals to share their experiences, knowledge, and industry information to help better serve their individual communities. Your fight towards creating parity in medicine is difficult, but necessary.

I urge you to stay the course until health disparities are eliminated from medically underserved populations.

Best wishes for a successful event.

Sincerely,

Greetings:

It is my honor to extend a warm welcome to the members, guests, partners and staff of the National Medical Association and its local component, the Central Florida Medical Society, as you gather in Orlando for your Annual Convention in celebration of your 116th year of operation. Your commitment to eliminating health disparities among people of color fulfills a far-reaching need in this community, and marks a unique contribution toward elevating the profile and impact of medical professions in communities of color.

I wholeheartedly commend your efforts to promote parity and justice in the medical field, and to broaden access to educational opportunities for individuals of color who pursue medical professions. Best wishes for the continued growth and success of the National Medical Association and the Central Florida Medical Society.

Sincerely,

NMA MEMBERSHIP

Our Mission

To advance the art and science of medicine for people of African descent through education, advocacy, and health policy to promote health and wellness, eliminate health disparities, and sustain physician viability.

Since its inception in 1895, the National Medical Association (NMA) has represented the specific interests of African-American physicians and their patients. Today, the collective talent and dedication of the membership allows the NMA to continue as the conscience of American medicine by working to eliminate health disparities in health care. NMA remains committed to improving the quality of health among minorities and disadvantaged people through its membership, professional development, community health education, advocacy, research, and partnerships with federal and private agencies.

Each Member Matters

Medical care for the disadvantaged and minority communities remains substandard, highlighting the historical gaps in the level of service based on minority patients receiving less than adequate care. We read and hear about them on the news and recognize them in trends outlined in various studies. But there's the other side of the story. For each negative anecdote, there is an instance where a NMA physician made the remarkable difference by using the network and resources of the NMA to improve the quality of the life of a patient. It may have been by referring the patient to one of our community-based programs, using information published in the JNMA or simply networking with other NMA members about the case. That member mattered—to the patient, their loved ones and their community.

The strength of the NMA remains the shared commitment of all members. Each professional touches the lives of hundreds of patients every year as a health care professional, researcher, teacher or mentor. Those collective experiences bring a unique perspective to the field and practice of medicine. Become a member of the NMA and witness how your personal experience can have a much greater impact—as an example to your peers, a force of change in your community, or furthering critical research that levels the field.

An NMA membership focuses on you by providing the resources, support and tools you need to enrich your career. Join the NMA today and make a commitment to yourself and to your profession.

Be a Part of Our Mission

Here are **five reasons why you should be a member** of the National Medical Association:

1. **Pride and Leadership** – The NMA has more than a hundred years of fighting against health disparities within African American and minority communities, as well as promoting the importance of African American physicians in health care.
2. **Advocacy** – The NMA has historically been an unwavering advocate for health policies that improve the quality and availability of health care for African Americans and other underserved populations.
3. **Community Outreach** – We have always been committed to prevention, wellness and promoting a healthy lifestyle among our members and the communities we live in. NMA conducts national consumer education programs on cancer, HIV/AIDS, diabetes, obesity, cardiovascular disease, stroke and other health issues impacting our communities.
4. **Education** – Our robust Continuing Medical Education programs for the Annual Convention and Scientific Assembly, Regional and State and Local Society meetings are developed and comprised by our 25 Scientific Specialty Sections.
5. **Scholarly Exchange** – The *Journal of the National Medical Association* has been published since 1909 with a special emphasis on the application of medical science to improve health care. The articles contained in the journal provide a vehicle for publishing scholarly papers and articles from leading scientists from around the world. The topics covered provide insight into some of the most relevant and current health care issues that we all face.

Professional Member Benefits

Follow us: @NationalMedAssn

NMA permits and encourages the use of social media, such as Facebook, Twitter, Instagram, YouTube, and blogging at the conference as a way to summarize, highlight, excerpt, review, critique, and promote the presented materials, syllabus materials, or the conference in general, provided that:

- copyright law is observed;
- verbatim information is limited to a few quotes; and
- the author or speaker is referenced and cited appropriately.

Out of respect for the other participants, we ask that noise-making electronic devices be silenced, though they need not be turned off. We understand that they may be used to follow along in the syllabus, tweet, or take notes in accordance with the below stated social media policy.

PARTICIPATION POLICIES & DISCLAIMERS

Code of Conduct

Convention attendees and participants agree to conduct themselves in a manner appropriate for a gathering of health professionals. Inappropriate behavior or unauthorized demonstrations or gatherings creating a disturbance or safety hazard are prohibited inside any meeting facility and the exhibit hall. Participants found disrupting any part of the NMA Convention and Scientific Assembly, conducting themselves in a manner unbecoming of a health professional, or violating these policies will be asked to leave the session or facility and may be prohibited from further Convention attendance.

Name Badges

For security reasons, badges must be worn at all times. Badges are required for admittance to all annual meeting sessions, exhibit hall, and events at the convention center and NMA headquarter hotel.

Cellular Telephones and Pagers

NMA requests that all cellular phones and pagers be placed on mute/vibrate and that participants abstain from talking on mobile devices in the meeting rooms as a courtesy to other meeting attendees.

Smoking

Smoking is not permitted in the convention center.

Children

The NMA Convention is a professional development event and due to safety liability issues, children under age 18 are not permitted in the Exhibit Hall (this includes children in strollers).

Photographing, Video, and Audio Recording

The National Medical Association (NMA) and its contractors may be photographing, videotaping, or audio taping scientific sessions and events at the Convention and Scientific Assembly. By attending the NMA Convention, attendees acknowledge these activities and agree to allow their image to be used by NMA in Association publications, on the NMA's website, social media sites (for example, Facebook, Google+, LinkedIn, Snapchat, Twitter, Vimeo, YouTube), and in marketing and promotional materials. Photographic images may also be shared with the media. Attendees at the NMA Convention and Scientific Assembly waive all claims against NMA for any liability resulting from these uses. Working journalists wishing to obtain press credentials must register with the NMA Press Office.

Social Networking

We expect that participants of the annual convention will treat each other with respect. We will delete posted comments that contain vulgar or abusive language; pornography; personal attacks of any kind; offensive terms that target specific ethnic or racial groups or incite violence. We will delete comments that are spam, are clearly "off topic" or that promote services or products. Comments that make unsupported accusations will be taken out of the discussion.

- Views expressed in content on NMA social media sites (for example, Facebook, Instagram, Google+, LinkedIn, Snapchat, Twitter, Vimeo, YouTube) are not necessarily representative of NMA views or policy.
- The use of vulgar, offensive, threatening or harassing language is prohibited.
- The discussion forum is not open to comments promoting or opposing any person campaigning for election to a political office or promoting or opposing any ballot proposition.
- The NMA social media sites are not open to the promotion or advertisement of a business or commercial transaction.

Unraveling Chronic Pain: From Defining to Modulating

Presented by:

Nancy E. Lane, M.D., Endowed Chair in Aging, Professor of Medicine and Rheumatology, Director, Academic Geriatric Resource Center University of California, Davis, Davis, CA

Kevin B. Gebke, M.D., Chair, Associate Professor of Clinical Family Medicine, Department of Family Medicine, Indiana University School of Medicine, Physician, Indiana University Health Hospitals, Indianapolis, IN

Overview of the existing evidence of the epidemiology and burden of chronic pain (CP), with a focus on the impact of aging population, the high unmet medical need and the societal, economic and individual burden of chronic musculoskeletal pain. An in-depth review of the current understanding of the pathophysiology of CP; the various mediators, including Nerve Growth Factor (NGF), their role in central and peripheral sensitization and, the rationale behind various pharmacological targets that are currently under-investigation for CP.

Objectives: Program participants will be better able to:

- Discuss the classifications, epidemiology, treatment guidelines, and unmet needs in the pain management of chronic pain
- Describe components of the pain pathway and key mechanisms of peripheral and central sensitization
- Provide an overview of the proposed mechanism of action of current pharmacotherapies for chronic pain
- Review chronic pain targets under investigation

Exploring Differences in Disease and Care for African Americans Living With Multiple Myeloma

Presented by: Adrienne A. Phillips, M.D., M.P.H., Weill Cornell Medicine, New York, NY

Multiple myeloma is the most common blood cancer among African Americans, but data show that this population has not benefitted

from survival improvements in recent years. This program shines a spotlight on racial and ethnic disparities in the diagnosis and treatment of multiple myeloma. Those who attend this program can expect to gain insight into the biological and social factors that are responsible for these disparities and will be presented with several approaches to address them. Come learn about the Standing in the Gaap program for patients with multiple myeloma!

This is a promotional program. No CME credits are offered. Attendance is restricted to healthcare professionals.

CONTINUING MEDICAL EDUCATION

Who Should Attend

The 2018 National Medical Association's Annual Convention and Scientific Assembly is planned as an educational reinforcement for practicing physicians, related health professionals, trainees and residents representing a variety of medical specialties and health professions.

Format

Workshops, "hands on" activities, and seminars addressing critical concerns of medical specialists will be held on Saturday and Sunday. Lectures, panels, and demonstrations will be provided throughout the week. Guest health care provider lecturers from leading institutions, National Medical Association physician experts, basic scientists, and residents and students in competition will bring to the Assembly current management of diseases confronted in today's medical practice.

Program Objectives

The scientific activity is designed to provide educational enrichment through special sessions, postgraduate courses and specialty sessions from twenty-four separate specialties. In-depth review of updated diagnostic methods and therapeutics will be discussed in an effort to prepare the participating physician for current medical practice in his/her field of specialty. Combined specialty sessions will provide opportunities for exchange of ideas and debate.

Educational Credits

The National Medical Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The National Medical Association designates this live activity for a maximum of 40 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The following U.S. state licensing required subjects will be presented during the scientific assembly activities:

- Care of the Terminally Ill
- Cultural Competency
- Family Abuse
- HIT/EMR
- HIV/AIDS
- Mammography
- Medical Ethics
- Pain Management
- Practice Management
- Risk Management

Disclosure

Lecturers, panelists, and planning committee members have disclosed relationships with commercial organizations. These relationships are also to be disclosed by the lecturer at the time of presentation.

OFF LABELED DRUGS: All speakers must acknowledge the status of drugs discussed and not approved for in-patient care.

CME Certification Registration

All scientific sessions throughout the week are open to registered convention participants. However, pre-registration may be required for special workshops.

"On-Site" credit claim forms will be available only by request. On-site credit forms must be signed by the section chair or his/her designee. Please be sure to keep the original copy of the "On-Site" credit form for your records and submit one copy to the section chair or his/her designee. A certified credit certificate, signed by the CME Director, will be sent to you in approximately 30 days post activity.

All credit hours will be awarded to the registrant based on:

- Full Payment of Assembly Registration
- Session Attendance
- Completed Evaluation

Failure to meet these requirements may result in denial of credit award.

GENERAL SESSIONS

PAST PRESIDENTS LEADERSHIP FORUM

Saturday, August 11th • 11:00 am–12:30 pm
Gatlin A4

Leadership opportunities abound within the National Medical Association. But too often the path to leadership seems vague and difficult to navigate. But you would be amazed at how similar the journey is for members who have successfully achieved local, regional or national office. More importantly what you can do for the health of your colleagues and the African Americans we serve within our community is unlimited; if you decide to be involved. The Past Presidents understand better both the path to leadership in the NMA and satisfaction of a job well done.

We want to encourage you to take the road less travelled and gather a few tips from those who lead now and those who have lead in the past. This is a first for the Past Presidents' Council, and we are delighted to offer this presentation and we invite you to participate.

PHYSICIANS BUSINESS & FINANCIAL FITNESS SYMPOSIUM: AN INTERACTIVE DISCUSSION ON "CRITICAL 2018 REIMBURSEMENT, TAX AND FINANCIAL UPDATES FOR PHYSICIANS"

Tuesday, August 14, 2017 • 8:00 – 10:00 am

Gaitlin D

Critical changes are being made in healthcare, and we can choose to be conciliatory or participatory in effecting the very change that affects our patients, our families and us. Indeed, practicing medicine in the 21st Century requires that physicians become proactively engaged as leaders and advocates as delivery and reimbursement reform measures continue to evolve. Similarly, physicians must become better informed and thereby proactively pursue financial stability for our families. Especially due to the tumultuous external environment, proactive strategy building to achieve individual and familial stability, both personally and professionally must become paramount. Join us to begin building your strategy, NOW!

Resilience is the process of adapting well in the face of adversity, trauma, tragedy, threats or significant sources of stress (APA, 2018). This session will critically examine facilitators and barriers to resilience in medically and socioeconomically vulnerable populations, and identify strategies to bolster resilience-building systems and environments. A transdisciplinary panel of established

and emerging health leader change agents will explore several dimensions of resilience from an ecological lens: sociocultural and societal influences (e.g. racism and discrimination); clinical and health systems; policy and population health; and public health practice. Case studies, findings, and lessons learned gleaned from various research projects and practical experiences will be shared to underscore the critical need for cultivating a culture of resilience that extends beyond supporting individual coping strategies. Families, communities, health practitioners and systems, social and civic organizations, and policymakers all have a vital role in collectively creating the conditions necessary for all individuals to successfully navigate their respective environments to achieve optimal health.

ANMA SOCIAL EVENTS

ORLANDO AFRICAN-AMERICAN HERITAGE TOUR

Saturday, August 11, 2018, 11:30 am–4:30 pm
Cost: \$110 / \$120

Orlando African-American Heritage Tour is approximately four and a half hours and highlights the legacy of physical attractions associated with African Americans, including Dr. William Monroe Wells of whom the popular Wells' Built Museum is named; Zora Neale Hurston, American novelist, short story writer, folklorist, and anthropologist whose life and museum (Zora Neale Hurston National Museum of Fine Arts) will capture your interest. Some lucky attendees will win a copy of her most popular novel, *Their Eyes Were Watching God*; Eatonville—Incorporated in 1887, is one of the first governing all-black municipalities in the United States, named after Josiah C. Eaton, one of a small group of white landowners who sold sufficient land to African Americans to incorporate as a black town; Eatonville Historic District, including Kennedy Boulevard, and St. Lawrence Church where Zora attended, and much more... Lunch will be provided in Eatonville Historic District and all entry fees will be covered.

Round-trip transportation provided from the Rosen Shingle Creek Hotel.
 Pick up at 11:30 am.

SCHOLARSHIP JAZZ LUNCHEON

Monday, August 13, 2018, 11:30 pm–3:00 pm
Cost: \$120 / \$130

Enjoy an afternoon of live cool jazz from guest artists, an exquisite fashion show with never seen before fashions, beautiful ambience, tasty food, great company, and prizes galore for the Auxiliary's flagship Jazz Luncheon Fashion Show held at Rosen Shingle Creek Hotel. Anne Namba will present her new line of fashions just for the Auxiliary's show. You will get all of this as you support the Auxiliary's Scholarship program designed to raise funds for students at Howard University College of Medicine, Meharry School of Medicine, Morehouse Medical College, and the Charles R. Drew University of Medicine and Science. You do not want to miss this annual, enjoyable, and meaningful event!

TEA AND CHOCOLATES

Tuesday, August 14, 2018, 1:00 pm–4:00 pm
Cost: \$120 / \$130

Tea and Chocolates is a match made in heaven! Rosen Shingle Creek Hotel will provide an extraordinary dessert chef to engage the attendees as he prepares the perfect chocolates. Each attendee will receive a special Chocolate Surprise for attending the tea. The affair will be held in the Butler Room, one of the most exquisite rooms at the Hotel.

The cylindrical shaped room with wooden carved ceilings and a balcony is the perfect place for an afternoon tea where one can enjoy tasty scones, tea sandwiches, miniature pastry delights, accompanied by lovely teas, sparkling champagne and assorted juices. Convention participants and friends are encouraged to take a few hours from their convention schedules to indulge in a relaxing afternoon where ladies may want to wear their most elegant hats and win prizes for them, and where gents may want to accompany their "sweetie" to the superb, annual ANMA tea.

"For many are called but few are chosen." - Matthew 22:14

Greetings!

It is my sincere pleasure to welcome you to Orange County, Florida for your 116th Annual Convention and Scientific Assembly.

As an elected official, my motto is Progress Requires Collective Commitment. While your profession is often thankless, your contributions to your patients, their families and communities are priceless. I thank you for doing your part through dedicated public service.

While you enjoy your premier amenities at the Rosen Shingle Creek Resort, I hope you take the time to visit other areas in my District: the plethora of venues along International Drive, the serene Barnett Park, and various Caribbean dining options in the Pine Hills business corridor, between West Colonial Drive and Silver Star Road.

I pray that God continues to bless and prosper your assembly.

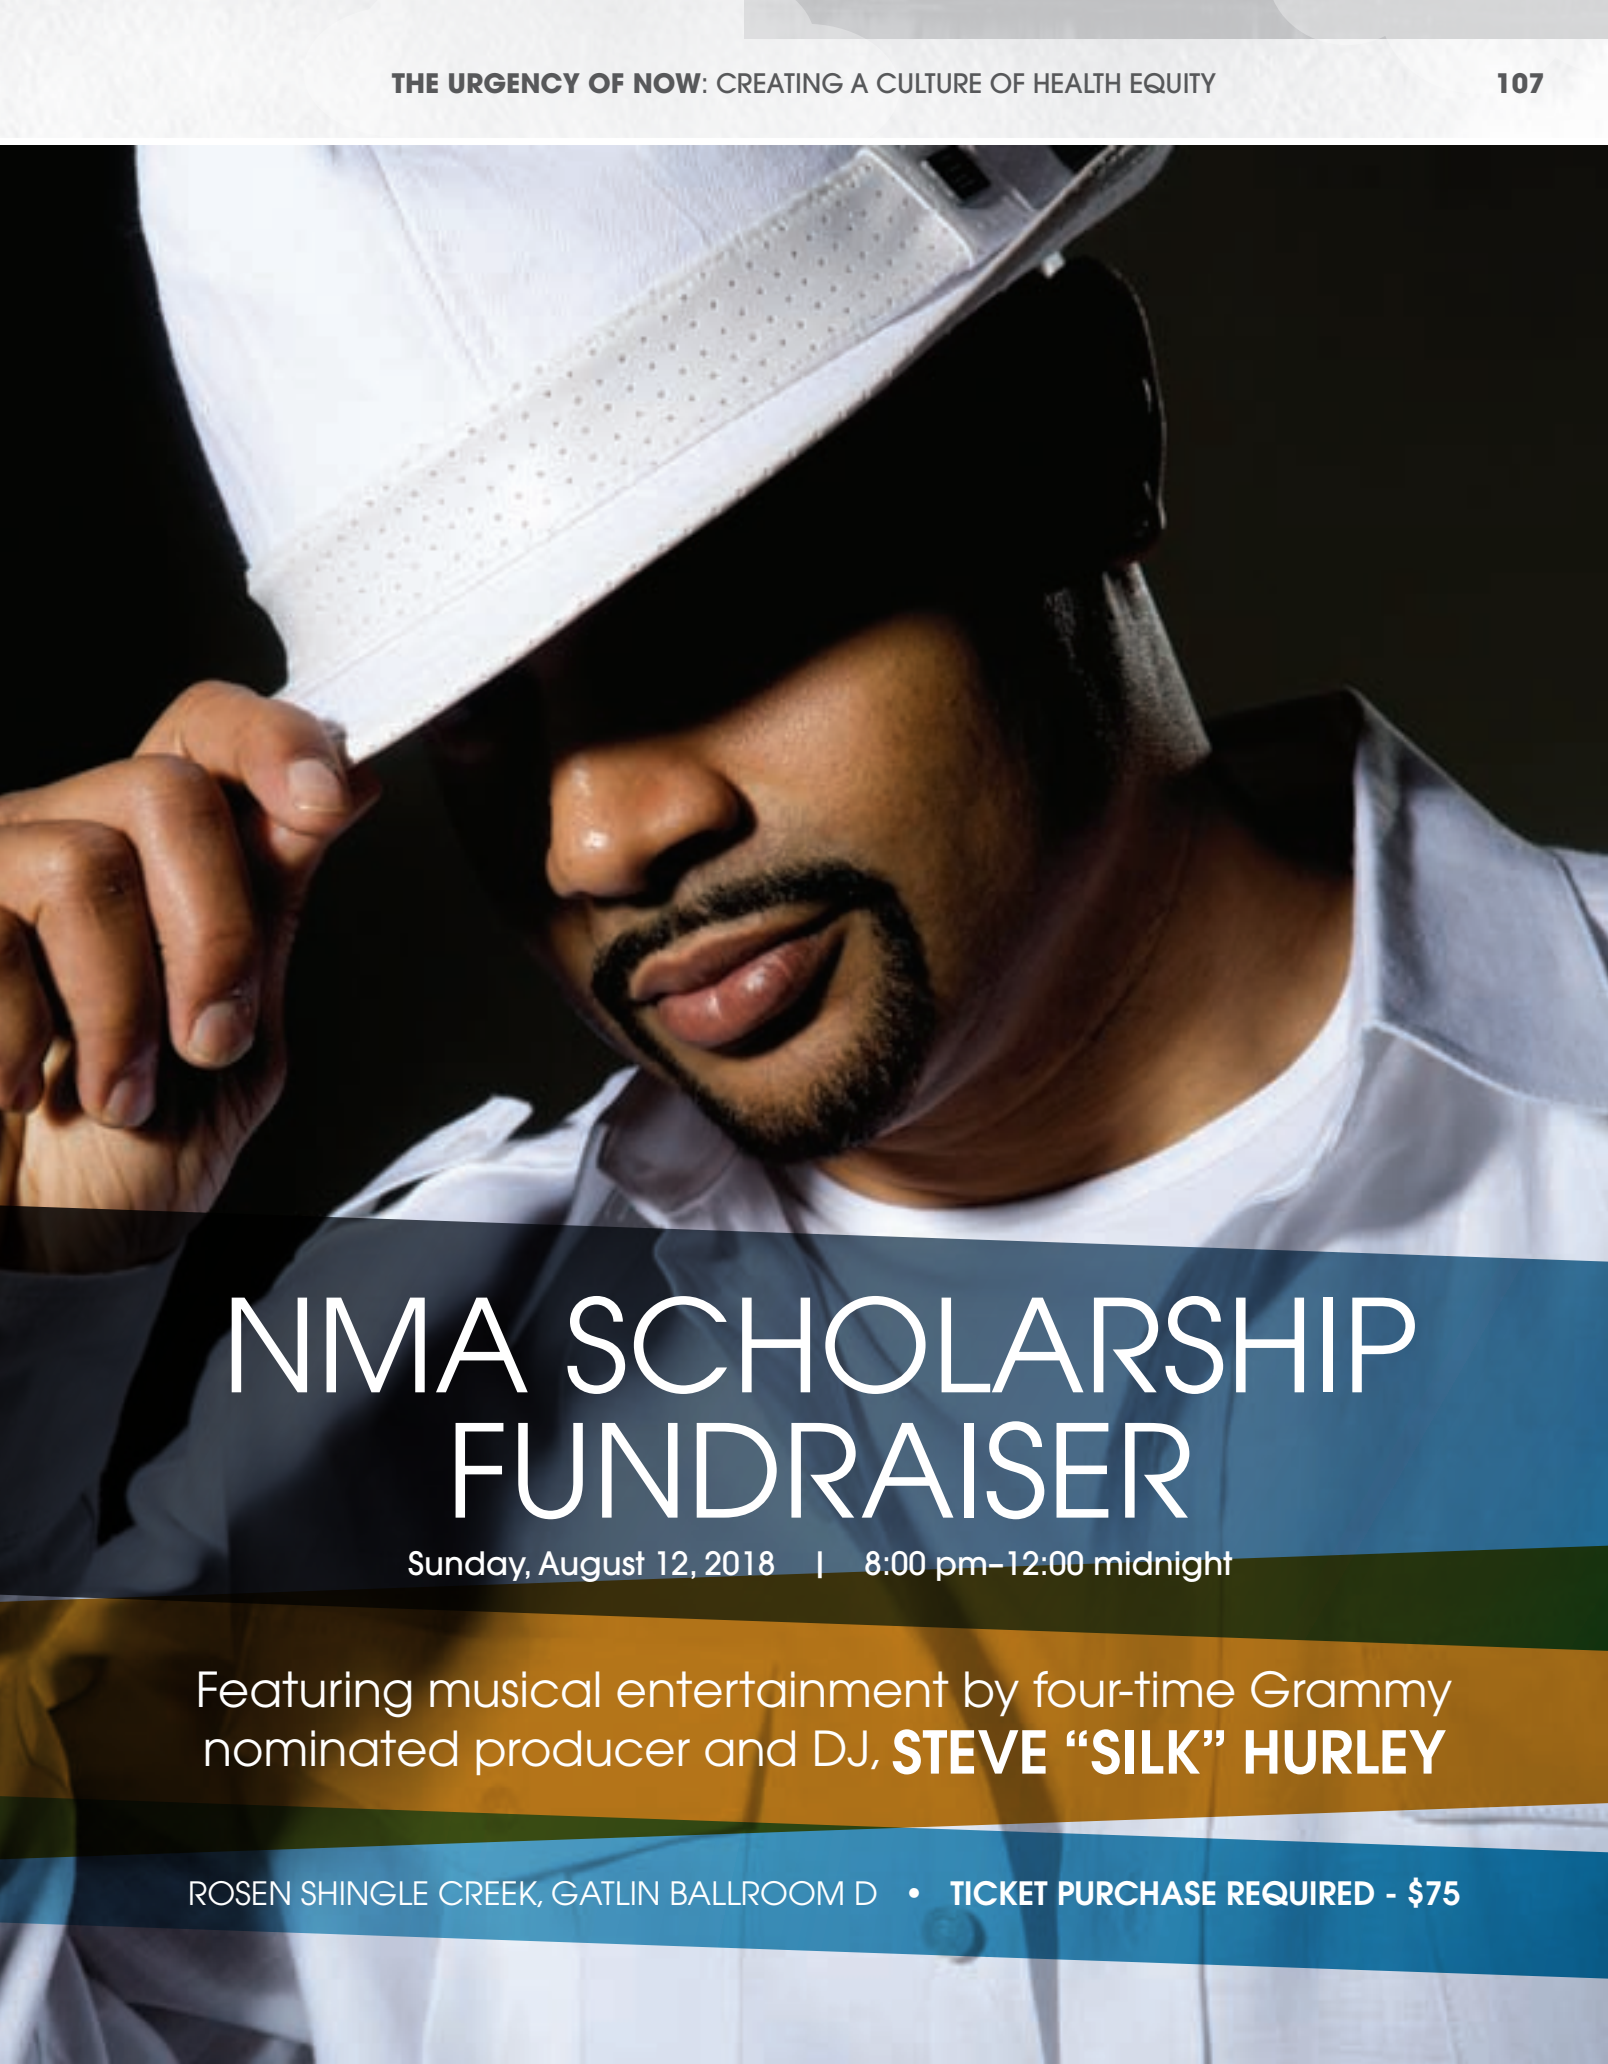

Blessings,

Routine HIV Screening. Every Patient.

CDC recommends HIV screening for all patients ages 13-64

An estimated **1.1 million** people in the United States are living with HIV, and approximately **1 in 7** are unaware of their status and would benefit from treatment. Early detection and treatment means your patients can live longer, healthier lives and help prevent further HIV transmission.

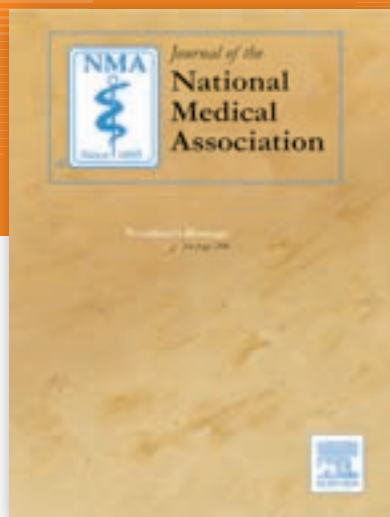

For free materials to incorporate HIV screening into your practice, call 1-800-CDC-INFO or visit:

www.cdc.gov/actagainstaids/hssc.

HIV SCREENING. STANDARD CARE.™

Call for Papers: Special Issue Cancer Health Disparities

Journal of the **National Medical Association**

Journal of the National Medical Association, the official journal of the National Medical Association, is a peer-reviewed publication whose purpose is to address medical care disparities of persons of African descent.

SUBMIT YOUR PAPER

While cancer affects all segments of the United States population and significant breakthroughs have resulted in improved overall survival and declines in cancer death rates, African Americans and other minorities suffer a disproportionate share of the burden of cancer in this country. For all cancers combined, the overall death rate is approximately 25 percent higher in African Americans than Caucasians.

The NMA is thus devoting a special issue of the ***Journal of the National Medical Association*** to Cancer Health Disparities. Authors are invited to submit original papers detailing clinical research on cancer disparities, including incidence, prevention, diagnosis, treatment and survivorship. Accepted papers will appear in a theme issue of the ***Journal of the National Medical Association***.

Process for Submission: For manuscript preparation and submission guidelines, please see the author guidelines at journalnma.org/content/authorinfo

To submit your manuscript, please visit the
