## United States Senate

WASHINGTON, DC 20510-3203

August 3, 2024

Dear Friends,

It is a pleasure to extend my warmest greetings as we celebrate the National Medical Association's 122<sup>nd</sup> Annual Convention and Scientific Assembly, *The Quest for Healthcare Transformation*. I am grateful for the opportunity to recognize the exemplary work of the National Medical Association and tonight's distinguished awardees on this beautiful occasion.

Since its inception, the National Medical Association has served as a critical resource for the medical community, providing relevant and accurate information to its members in New York and across the nation. The National Medical Association is the largest and oldest national organization of African American physicians in the United States, representing the interests of over 50,000 African American physicians and the patients they serve. As the nation's foremost forum on medical science, the National Medical Association is committed to improving the quality of health for minorities and disadvantaged people from all ethnic groups through its membership, professional development, community health education and advocacy, as well as its partnerships with federal and private agencies.

On behalf of all New Yorkers, thank you for your hard work. I am certain that National Medical Association will continue its commitment to the people of New York and the Nation for many more years. Best wishes for a beautiful evening!

Sincerely,

Charles E. Schumer  
United States Senator

**KIRSTEN GILLIBRAND**  
NEW YORK

**UNITED STATES SENATOR**

August 3, 2024

Dear friends,

It is a privilege to send greetings to everyone attending the National Medical Association's (NMA) 122nd Annual Convention and Scientific Assembly in New York. Thank you to President Yolanda Lawson for organizing and hosting this event.

I am grateful for organizations like the National Medical Association, a leading organization advocating for the health of the African American community and the largest and oldest national organization representing African American physicians in our country. The work the NMA does to empower medical professionals and our marginalized communities is critical, with thousands of African American medical health professionals and Americans from marginalized communities across our country benefitting from this work. It is my sincere hope that these steadfast efforts will inspire others to take part in actions to serving minority and disadvantaged communities.

Please accept my best wishes for a wonderful event and many more years of continued success.

Sincerely,

A handwritten signature in blue ink that reads "Kirsten Gillibrand".

National Medical Association  
8403 Colesville Road, Suite 820  
Silver Spring, Maryland, 20910

To the Members of the National Medical Association:

Welcome to New York City! I am thrilled to welcome the National Medical Association to New York's 12<sup>th</sup> Congressional District for the 122<sup>nd</sup> Annual Convention of the foremost forum on medical science and African American health.

This week, you will convene to discuss this year's theme, "The Quest for Healthcare Transformation," and you will engage in meaningful discussions surrounding Black Women's health, digital innovation, and the healthcare workforce. This is timely work as the United States has the highest maternal mortality rate of any high-income country, and maternal mortality rates are significantly higher for Black women than rates for white women.

We are also navigating a new digital world in the healthcare industry as we seek to safely improve care with telehealth and AI. Critically, we also face an ongoing healthcare worker shortage which has only worsened following the COVID-19 pandemic. I commend you for tackling these complex challenges head on, and I look forward to continuing to engage with you on these issues.

Thank you for your engagement this week and for your ongoing commitment to providing high quality healthcare throughout our country.

Sincerely,

A handwritten signature in black ink that reads "Jerrold Nadler".

JERROLD NADLER  
Member of Congress

NEW YORK, NY 10007

August 3, 2024

Dear Friends:

It gives me great pleasure to welcome everyone as the National Medical Association (NMA) hosts its 122<sup>nd</sup> annual Convention and Scientific Assembly.

Established in 1895, the NMA has long been a seminal voice in the advancement of compassionate, evidence-based health care and a uniting force for Black physicians across the nation. Representing tens of thousands of African American doctors and their patients, this group is determined to eliminate disparities in treatment through its strong policy agenda, an increase in professional development opportunities, and collaborative partnerships. A main vector of its educational efforts is its *Journal of the National Medical Association*, which, for more than a century, has published a diverse array of peer-reviewed clinical studies with a special emphasis on those that impact underserved communities. Today, the NMA builds upon this work as it kicks off its multi-day Convention and Scientific Assembly, located at the Hilton Midtown and Sheraton New York Times Square, respectively. Following its theme, The Quest for Health Care Transformation, it will focus on the needs of Black clinicians and patients, digital innovation, and how to better support this field's workforce, in addition to its many networking and relationship-building prospects. On this occasion, I am pleased to commend the Association and everyone involved for their dedication to delivering high quality care services, improving upon their expertise and current practice, and forging a brighter, fairer, and healthier future for all.

On behalf of 8.3 million New Yorkers, please accept my best wishes for an enjoyable and enlightening event.

Sincerely,

A handwritten signature in black ink that reads "Eric Adams".

Eric Adams  
Mayor

# From Our President

Dear Esteemed Colleagues, Partners, Sponsors, and Attendees,

As the 124th President of the National Medical Association I extend a warm welcome to our 122nd Annual Convention and Scientific Assembly. This year, we gather in New York City, from August 3-7, 2024, at the prestigious New York Hilton Midtown and Sheraton New York Times Square.

As we convene in one of the world's most iconic cities, our Assembly promises to be a landmark event, offering an unparalleled opportunity for culturally relevant education, networking, and collaboration. This year, we stand united under the theme of "The Quest for Healthcare Transformation," a call to action that invites us to pursue a transformative approach to overcome health disparities and advance health equity for all of America.

As we delve into the heart of this quest, I have anchored my Presidential journey on three core pillars that stand as a testament to our commitment to address ongoing issues in health equity and the strategic direction:

1. **Black Women's Health Agenda** - This pillar is not just about advocacy; it's about actionable change, ensuring that Black women's health is prioritized, protected, and promoted at all levels of healthcare delivery and policy-making.
2. **Digital Innovation** - Recognizing the transformative power of technology in healthcare, our focus on Digital Innovation seeks to bridge the gap in Health Equity and Health Policy. It's crucial that the expansion of digital health approaches serves to reduce, not exacerbate, existing health disparities. Our collaboration with partners in broadband, usability, and equal opportunity aims to ensure that

all individuals can benefit from digital technologies to improve health outcomes.

3. **Healthcare Workforce** - Our commitment extends to strengthening the backbone of our healthcare system and ensuring a diverse workforce is prioritized.

To our valued members, attendees, and stakeholders your engagement and support are indispensable to the realization of our shared vision. The National Medical Association is more than an association; it is a community of committed professionals driven by a shared purpose to advance health equity and transform healthcare for the betterment of all.

As we gather in this iconic city, let us embrace the opportunity to learn, share, and collaborate... I am filled with anticipation for what we will achieve together at this year's convention and beyond, as we forge a path towards a future where health equity is not just an aspiration, but a reality.

Warm regards,

Yolanda Lawson, MD  
124th President  
National Medical Association

# From Our Executive Director

Summer Greetings Officers, Members, and Friends of the National Medical Association!

Welcome to our nationally renowned convening experience—the 122nd Annual Convention and Scientific Assembly—in the Big Apple itself, New York City! Just steps from the iconic Times Square, our distinguished Association will offer over 100 thought-provoking, expertly presented seminars, sessions and presentations totaling 41 hours of certified CME content. The conference theme, “The Quest for Healthcare Transformation” boasts topics as wide ranging as gene therapy for sickle cell disease, gun violence, and the importance of diversity in infectious disease research; our annual Convention will certainly prove to be fresh, compelling, and relevant.

The National Office staff has worked tirelessly to facilitate this monumental Convention and we consider it an honor to serve our physician leadership, membership, and Association in this special way. I want to specifically thank our CME, Membership, and Finance/Accounting departments for their herculean efforts toward bringing this year’s vision to life. We are also blessed with both long-term and new vendor partners in event planning and communications and marketing who quickly immersed themselves in this year’s preparations. I am certain that our attendees will feel the excitement and passion our staff and partners have offered to reach this exciting culmination.

I offer, too, my deepest gratitude to all the sponsoring organizations and exhibitors for providing their generous financial support and investment. Without their commitment to NMA, this assembly would simply not be possible. I count it a special joy to have the support and participation of our esteemed Corporate Circle members—Gilead, Regeneron, Pfizer, Merck, Amgen, Novo Nordisk, Vertex, and AstraZeneca.

I am thrilled that you are here; it is our sincere wish that over the next few days you will learn, laugh, relax, and enjoy the camaraderie of your friends and colleagues. If it is your first time attending the NMA Convention, welcome to our family reunion! Have a blast, all, as you absorb the clinical and scientific research and information curated for you, revel in the award-winning entertainment, and indulge in some of New York’s finest culinary delights! Be certain to visit our incomparable Exhibit Hall, patronize our ANMA Marketplace, and of course partake in the daily activations at the hub of it all—NMA Central!

Thank you again for being with us over these next few days, and welcome to New York!

Sincerely,

A handwritten signature in black ink, appearing to read "Joy D. Calloway". The signature is stylized and fluid, with a prominent loop at the beginning and end.

Joy D. Calloway, MBA, MHSA

# CAMP NMAZING

The NMA has contracted KiddieCorp, a leading childcare service provider, to organize a fun-filled and enriching program for the youth of attendees at the NMA 2024 Convention and Scientific Assembly. KiddieCorp has delivered exceptional childcare programs since 1986, earning a sterling reputation for its services with associations and corporations nationwide.

The four-day Camp NMA-zing program offers day and evening sessions, ensuring a comprehensive and engaging experience for the young participants. KiddieCorp maintains chaperone-to-youth ratios that guarantee safe and professional care. Qualified chaperones, including nannies, nurses, and teachers, are certified in first aid and CPR.

Program fees cover transportation, activity admission fees, daily lunches and dinners, four t-shirts, and insurance.

Each day, parents drop off their child(ren) beginning at 8:00 am and pick them up by 9:30 pm. Please note that the schedule of activities are subject to change.

NEW YORK HILTON MIDTOWN, CONCOURSE LEVELS B, C, D, E, G

## TOURS & ENTERTAINMENT WILL INCLUDE:

Statue of Liberty and Ellis Island  
Central Park Zoo  
New York Charity - City Meals  
Luna Park in Coney Island  
Magician  
Team Building Hub - Escape Room  
Donation Bag Activity  
Dr. Schnitzel's Wacky Science  
SPYSCAPE  
KiddieCorp Olympics  
DJ Dance Party

## AGE GROUPS

Group 1  
(3-5 years)

Group 2  
(6-8 years)

Group 3  
(9-11 years)

Group 4  
(12-14 years)

Group 5  
(15+ years)

# WALK A MILE WITH A CHILD

SATURDAY  
**AUG. 3**  
8am-12 noon  
Sheraton, Metropolitan East Ballroom, Level 2

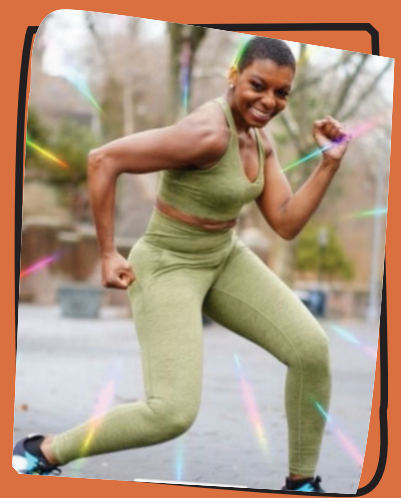

**BLACK DOCTORS SUPPORTING A HEALTHY COMMUNITY**

# ANNUAL MURIEL PETIONI, M.D. AWARDS PROGRAM

with featured speaker  
Rev. Shavon Arline-Bradley,  
M.P.H., M.Div.

**Sunday, August 4, 2024**  
**11:30 am–1:30 pm**

tickets: \$200

## Exhibit Hall Activities and Receptions

### Exhibit Hall Grand Opening Reception

Sunday, August 4 | 5:30 pm–7:30 pm

Join us as we officially open the Exhibit Hall with a Reception that is sure to please everyone! Enjoy hors d'oeuvres, music and dialogue with our exhibitors.

### NMA Central

Sunday, August 4 | 5:30–7:30 pm

Monday, August 5 | 10:00 am–4:00 pm

Tuesday, August 6 | 10:00 am–4:00 pm

The Association's convention site headquarters, NMA staff will be available to provide information about programs, activities, memberships, the *Journal of the National Medical Association* and so much more. Located in the Grand Ballroom Foyer.

### Paint & Sip

Monday, August 5 2:00–4:00 pm

Advanced registration required. Need a break? Why not step away from CME and HOD and join us at Creativity Central (aka NMA Central). Let's put the "Art" back in Medicine!

### Presentation Theaters

Presentations hosted by companies where companies showcase new products and/or treatment options. The programs feature non-CME presentations with meals served.

#### Monday, August 5

11:30 am–12:30 pm – Supported by: ViiV Healthcare (Theater 1) & Exact Sciences (Theater 2)

1:00–2:00 pm – Supported by: Genentech – Xolair (Theater 1) & Gilead Sciences, Inc. (Theater 2)

#### Tuesday, August 6

11:30 am–12:30 pm – Supported by: Vertex Pharmaceuticals (Theater 1) & Novo Nordisk (Theater 2)

1:00–2:00 pm – Supported by: Bristol Myers Squibb (Theater 1) & AstraZeneca (Theater 2)

# Presentation Theaters

Presentations hosted by exhibitors and/or non-exhibitors in two Presentation Theaters located in the exhibit hall during exhibit hours. Companies will showcase new products and/or treatment options during the Annual Convention and Scientific Assembly. Presentation theaters will feature non-CME presentations/speakers with round-table dining for each theater.

## Monday, August 5th

### **PrEP today. Data discussions on an HIV-1 PrEP option**

11:30 AM - 12:30 PM | Theater #1

During this educational session, attendees will learn about an alternative PrEP option to help prevent HIV in their patients. The program will review important information, clinical data, and dosing and administration, and provide guidance on identifying patients who would benefit. In addition, the program will also feature a Patient Ambassador who will share their personal experience with this PrEP option and discuss how it impacted their life.

Speakers: Toyin Nwafor, M.D., Moderator; Marcus Sandling, M.D.; Callen-Lorde Community Health Center; Shae P, Patient Ambassador

Sponsored by: 

### **The Value of Screening with the Cologuard® Test in Black/African American Populations**

11:30 AM - 12:30 PM | Theater #2

Why does colorectal cancer (CRC) remain the most preventable yet least prevented cancer in the US? A look at CRC screening gaps, the importance of support and multi-modality protocols that help address screening barriers in African Americans.

Speakers: Travelle Ellis, Senior Director, Multicultural Initiatives

Sponsored by: 

### **Xolair: A Therapeutic Option for IgE-Mediated Food Allergies**

1:00-2:00 PM | Theater #1

The presentation will be an on-label review of the efficacy and safety data which led to the approval of Xolair for Food Allergy. It will also include Xolair "important safety information", Xolair dosing and administration, Xolair patient support services, as well as information on food allergy prevalence, causes and current management options.

Speakers: Purvi Parikh, M.D.

Sponsored by: 

### **Reestablishing the Fundamentals to Help Accelerate PrEP Uptake**

1:00-2:00 PM | Theater #2

Elevate the central role that healthcare providers can play in addressing HIV prevention needs; Address barriers to pre-exposure prophylaxis (PrEP) uptake and access while providing clarity around the affordability of PrEP; Emphasize the need for a systems change designed to increase the uptake of rapid PrEP initiation for those who could benefit from it

Speakers: Leisha McKinley Beach, M.P.H., Founder and CEO, Black Public Health Academy; Natalie L. Wilson, Ph.D., D.N.P., M.P.H., APRN-BC, Assistant Professor, Community Health Systems, School of Nursing, University of California, San Francisco; Byron Perkins, Former Hampton University, Student-Athlete, Philanthropist, Actor, Creative, and Influencer; Darryl Williams, Chief Content Officer, Almost Cake LLC; Michael G. Knight, M.D., MSHP, Clinical Associate Professor of Medicine, School of Medicine and Health Sciences, The George Washington University

Sponsored by: 

## Tuesday, August 6th

### **Beneath the Surface of CKD in African Americans: APOLI-Mediated Kidney Disease (AMKD)**

11:30 AM - 12:30 PM | Location: Theater #1

APOLI-mediated kidney disease (AMKD) is a rapidly progressive and variably proteinuric kidney disease impacting people of African ancestry. The speakers will discuss the emerging role of genetics in precision kidney care and review unmet medical needs in a challenging patient journey with AMKD.

Speakers: Margaret Collins, M.D., Medical Director, Vertex Pharmaceuticals; Niva Lubin-Johnson, MD; Past President, National Medical Association; Clinical Consultant, Quality Primary Care PC

Sponsored by:  VERTEX  
THE SCIENCE OF POSSIBILITY

### **Understanding MASH: Exploring the Role of Metabolic Dysfunction in an Often Silent and Progressive Liver Disease**

11:30 AM - 12:30 PM | Theater #2

Join us as we discuss MASH (metabolic dysfunction-associated steatohepatitis) and the impact of the underlying metabolic dysfunction on disease progression. We will also discuss the importance of early identification and screening for at-risk patients and review current management considerations.

Speaker: Sonal Kumar, M.D., M.P.H. | Director, General Gastroenterology and Hepatology; Director, Innovative Center for Health and Nutrition in Gastroenterology (ICHANGE/GI Obesity Clinic); Assistant Professor of Medicine, Weill Cornell Medical College

Sponsored by:  novo nordisk®

### **Exploring Disease and Disparities for African Americans Living With Multiple Myeloma**

1:00-2:00 PM | Theater #1

This program shines a spotlight on racial disparities in the diagnosis and outcomes of multiple myeloma. Those who attend this program can expect to gain insight into factors that may be responsible for these disparities and will be presented with several approaches that may help address them.

Speakers: Brion Randolph, M.D., University of Tennessee Health Science Center

Sponsored by:  Bristol Myers Squibb®

### **Reframing Rescue Therapy to Help Prevent Asthma**

1:00-2:00 PM | Theater #2

Ready to uncover the unmet needs in asthma? Join us to discuss variable inflammation in the occurrence of asthma exacerbations and the consequent burden of repeated systemic corticosteroid exposures. Learn about patient preferences for asthma treatment and recommendations from GINA and NAEPP. Data on a rescue treatment option will be reviewed.

Speakers: Autumn Burnette, M.D., Howard University

Sponsored by:  AstraZeneca

# CME Information

The National Medical Association (NMA) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The NMA designates this live in-person activity for a maximum of *40 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## Format & Activity Description

Workshops, hands on activities and seminars addressing critical concerns of medical specialists will be held during this activity. Lectures, panels, and demonstrations will be given as well.

All scientific sessions throughout the convention are open to registered attendees. However, pre-registration may be required for special workshops.

## Disclosure of Unlabeled or Unapproved Uses of Drugs

Please note that this activity may contain discussions of unlabeled uses of FDA-approved products, AND/OR discussions of investigational products not yet approved by the FDA. Please refer to the official prescribing information for approved indications, contraindications, and warnings.

## Disclosure Policy Statement

In accordance with the ACCME's Standards for Integrity and Independence, all persons who control the educational content of NMA accredited activities must disclose all financial relationships with any ineligible companies that they have had over the past 24 months. NMA uses the ACCME's definition of ineligible companies: Those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. There is no minimum financial threshold. NMA determines whether any of those financial relationships are relevant to this activity. NMA ensures that all Relevant Financial Relationships are disclosed to learners. All of the relevant financial relationships identified for persons in a position to control activity content have been mitigated.

## CME Certificate Process

After the meeting, attendees will print their CME certificates from Cadmium, NMA's Learning Management System. In the system, attendees will self-select the sessions attended, and a certificate will be prepared for print. The next page may be helpful to track session attended. This information may be used to prepare and print CME certificates after the meeting. An email announcing the system is ready will be sent by August 28, 2024.

# Track Your CME

Use this page to log which sessions you attend. When you receive the 'Certificate is Ready' email, use this information to add your total CME credits to your transcript.

# Presidential Plenaries

The National Medical Association designates these live in-person activities for a maximum of 1.25 or 2.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

In accordance with the Accreditation Council for Continuing Medical Education's Standards for Integrity and Independence, all persons who control the educational content of NMA accredited activities must disclose all financial relationships with any ineligible companies that they have had over the past 24 months. NMA uses the ACCME's definition of ineligible companies: Those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. There is no minimum financial threshold. NMA determines whether any of those relationships is relevant to this activity. All of the relevant financial relationships identified for persons in a position to control activity content have been mitigated.

## Edward C. Mazique, M.D. Symposium The Quest for Digital Health Equity: Artificial Intelligence (AI) and the Future of Healthcare

**Saturday, August 3, 2024 | 1:00 PM – 3:00 PM**  
**Hilton: Grand Ballroom West, 3rd Floor**  
**2.0 CME Credits**

AI and digital innovation have had a significant impact on healthcare. They have improved patient care through personalized treatment plans, remote monitoring, and predictive analytics. However, we want to make sure that as this field expands, all communities and populations will benefit. By the end of the session, participants should have a comprehensive understanding of how AI and digital health technologies can be leveraged to address and transform health disparities into health equity. The audience will also be equipped with practical strategies and ethical considerations for implementation.

## Edith Irby Jones, M.D. Plenary Transforming Healthcare: The Impact of “Big Med”

**Sunday, August 4, 2024 | 9:00 AM – 11:00 AM**  
**Hilton: Grand Ballroom West, 3rd Floor**  
**2.0 CME Credits**

Large healthcare organizations and corporations are dominating the healthcare industry. These organizations often have significant influence over healthcare policies, practices, and the delivery of care. They can impact patient access to care, quality of care, and healthcare costs. This session will examine the impact of Big Medicine and provide a comprehensive understanding of

how Big Medicine is transforming the healthcare landscape, its impact on the workforce, and the implications for health equity. At the conclusion of this session, the audience should be equipped with strategies to navigate these changes, promote workforce well-being, and ensure equitable healthcare access and outcomes.

The following planners, moderators, and speakers declare no relevant relationships with commercial entities.

## Special Presidential Plenary The Justice Imperative Part I: Restorative Justice

Monday, August 5th  
8:00 – 9:15 am  
Hilton: Murray Hill East  
1.25 CME Credits

This panel discussion will delve into the realms of restorative justice emphasizing the importance of holistic solutions that address both ecological and social inequities. During this session, attendees will explore the intersections between justice frameworks and their implications for marginalized communities. The following planners, moderators, and speakers declare no relevant relationships with commercial entities.

Deleso Alford, J.D.

The following planners, moderators, and speakers declare the following relationships with commercial entities.

Yolanda Lawson, MD: Myouant Sciences, Pfizer,  
Viiu, Pfizer – Advisory Board

## Special Presidential Plenary The Justice Imperative Part II: Climate & Environmental

Monday, August 5, 2024 | 9:30 AM – 11:00 AM  
Hilton: Murray Hill East  
1.5 CME Credits

Environmental justice is a human rights and public health issue that ensures everyone has the right to live in healthy, safe environments. Minority and vulnerable communities are commonly the target for environmentally hazardous activities. In these communities the impact of the environment on health can be even more pronounced. These neighborhoods often face greater exposure to environmental hazards such as pollution, industrial waste, and contaminated water sources. Limited access to healthcare and resources for mitigating environmental risks further exacerbates the health disparities in these locales. This session will address these inequities and examine policies and actions that promote social and environmental justice.

The following planners, moderators, and speakers declare no relevant relationships with commercial entities.

Tuesday, August 6 | 11:00 am - 1:00 pm

## ANMA Social Events

The ANMA has developed an array of networking, inspiring, educational, relaxing, and fun events for its members and those attending the National Medical Association annual convention. These activities include:

### **Annual ANMA/NMA Prayer Breakfast and Memorial Service**

Sunday, August 4 | 7-8:45am EDT  
Hilton: Mercury Ballroom, Level 3

**Auxiliary to  
the National  
Medical  
Association**

# Satellite Symposia

## Advancing Food Allergies

Sunday, August 4th | 2:00-3:00 PM  
Clinton Suite, New York Hilton Midtown

This moderator led, Q&A-style presentation aims to address the gaps in awareness, screening, and access to specialized care for food allergies, particularly impacting African American and Latinx populations in the US. Hear from experts in family medicine, allergy & immunology, and pediatrics as they discuss topics including:

- Disparities in the provision of food allergy action plans and need for equitable access to allergy clinics
- Referral pathways and nutrition management tailored to underserved communities
- Challenges of diagnosing IgE-mediated food allergies in the primary care setting

Speakers:

- Carla McGuire Davis, M.D. - Professor, Pediatrics-Allergy & Immunology Baylor College of Medicine, Houston, TX
- Dr. Warren Jones - Chair Emeritus of Family Medicine, University of Mississippi Medical Center, Jackson, MS
- Dr. Denise Powell - Pediatrician, Ochsner Medical Center, Bay Saint Louis, MS

Sponsored by: **Genentech**

## Advancing Equitable Care in Multiple Myeloma From the Beginning

Sunday, August 4th | 7:30-8:30 PM  
Riverside Ballroom, Sheraton New York Times Square

This 60-minute symposium will feature a panel of hematology experts who will discuss therapeutic advancements and strategies to address disparate outcomes among patients with multiple myeloma, a blood cancer with a 2-fold incidence rate among Black individuals. Speakers will shed light on areas of health disparity in myeloma and focus on actionable strategies for overcoming barriers to

equity at multiple levels of care. Attendees will be able to engage directly with the expert panel in an interactive Q&A session.

Speakers:

- Joseph Mikhael, M.D., M.E.D.
- Tondre Buck, M.D.
- Monique Hartley-Brown, M.D., M.M.Sc.

Sponsored by: **sanofi janssen** 

Presented by: **Medscape**

## Catalysts for Change: Revolutionizing the HIV Prevention Conversation with Black Women

Monday, August 5th | 2:00-3:00 PM  
Clinton Suite, New York Hilton Midtown

Join us for an impactful session as we explore the pivotal role of healthcare providers in increasing awareness and action around HIV prevention and care for Black women. Through dynamic discussions and real-world scenarios, we'll delve into ViiV Healthcare's Risk to Reasons initiative, equipping healthcare providers with the necessary tools to remove stigmatizing language and normalize HIV prevention conversations. This session will incorporate interactive resources that aim to educate providers on how to reframe "risk" to "reasons" for HIV prevention and care. Don't miss this opportunity to gain valuable insights and practical tools in the fight against HIV.

Speakers:

- Toyin Nwafor, MD, Senior Medical Director, HIV Prevention, ViiV Healthcare
- Alftan Dyson, PharmaD, BCACP, AAHIVP, Regional Medical Lead, US DEI Medical Engagement Lead, ViiV Healthcare
- Oni Blackstock, MD, MHS, Founder and Executive Director, Health Justice

Sponsored by: **ViiV Healthcare** 

## Breath of Equity: Fostering Inclusive Lung Cancer Care for All

Monday, August 5th | 2:00-3:00 PM  
Riverside Ballroom, Sheraton New York Times Square

To address DE&I in lung cancer care, Medscape proposes Breath of Equity: Fostering Inclusive Lung Cancer Care for All for the interprofessional care team so that they will be better able to prioritize DE&I strategies for the comprehensive care of patients with lung cancer. This educational strategy has been selected to achieve the learning objectives and elicit the knowledge, skills, attitudes, and behaviors that the target audience is expected to demonstrate.

### Speakers:

- Ibiayi Dagogo-Jack, M.D.
- Lisa Carter-Bawa, Ph.D., M.P.H., APRN, ANP-C

Sponsored by:  

Presented by: 

## Understanding migraine in the diagnosis and management and addressing healthcare disparities

Monday, August 5th | 5:30-6:30 PM  
Petite Trianon, New York Hilton Midtown

Expert panel will share their insights and knowledge on migraine care that includes diagnosis and management, as well as talk to their experiences on how healthcare disparities impact underrepresented ethnic groups. An interactive discussion with the panelists will follow in the live audience Q&A.

### Speakers:

- Cynthia E. Armand, M.D.
- Larry Charleston IV, M.D.
- Hope O'Brien, M.D.

Sponsored by: 

# House of Delegates

Hilton: 3<sup>rd</sup> Floor, Trianon Ballroom

The House of Delegates (HOD) is the legislative body of the National Medical Association (NMA). During the HOD sessions at the Annual Convention, the elected Delegates of the Association meet to conduct the business of the NMA. During the 3 days that the HOD is in session, the HOD will receive and act upon the reports of the Board of Trustees, HOD Councils, HOD Reference Committees and Officers of the Association. In addition, the election of the General Officers of the Association takes place within the House of Delegates. All members of the NMA may attend the Open Sessions of the HOD, but only Delegates have the right to vote in the deliberations of the HOD. To be eligible to be a Delegate for House of Delegates meetings, an individual must have been a dues paying member of the NMA in the previous year. Delegates are selected by the State Societies and Sections who submit names for credentialing/ registration to the NMA HOD Office.

## Pre-Registration

Friday, August 2nd ..... 4:30 pm - 8:00 pm  
Saturday, August 3rd ..... 9:00 am - noon

## HOD SESSION 1 | Saturday, August 3rd

Delegate Sign-in ..... 2:00 - 3:00 pm  
HOD Session ..... 3:30 - 5:30 pm

## HOD Session 2 | Sunday August 4th

[www.legallymineusa.com](http://www.legallymineusa.com)

**The Leukemia & Lymphoma Society**

Booth #214  
Rye Brook NY USA  
[lls.org](http://lls.org)

The Leukemia & Lymphoma Society (LLS) is the world's largest voluntary health organization dedicated to finding cures and ensuring access to affordable, quality care for blood cancer patients. The LLS mission is to cure blood cancers and improve the quality of life of patients and their families. LLS provides free support and resources, as well as online and local in-person education programs and videos to help all patients, survivors and their families stay informed about and access the best possible treatment and follow-up care. LLS patient and survivor services include co-pay assistance, transportation and urgent need assistance, one-on-one peer-to-peer support, online chats and forums, personalized nutrition consultation, and support groups. Services also include up-to-date disease and treatment information provided through the LLS website and printed booklets. LLS is committed to breaking down barriers and addressing the needs of underserved populations, and we believe strongly that our mission must reflect the communities we serve. We have adopted the Centers for Medicare and Medicaid definition of health equity: health equity is the attainment of the highest level of health for all people, where everyone has a fair and just opportunity to attain their optimal health regardless of race, ethnicity, disability, sexual orientation, gender identity, socioeconomic status, geography, preferred language, or other factors that affect access to care and health outcomes. For LLS, enhancing health equity means a commitment to reducing and ultimately eliminating health disparities that affect individuals with blood cancer.

**Meharry School of Medicine**

Booth #2851

### **National Institute of Allergy and Infectious Diseases**

Booth #210  
Bethesda, MD USA

### **NATIONAL MEDICAL FELLOWSHIPS**

#### **National Medical Fellowships**

Booth #2932  
Alexandria, VA USA  
[nmfonline.org](http://nmfonline.org)

National Medical Fellowships (NMF) is dedicated to advancing health equity by offering comprehensive support to underrepresented students in the health care field. Through robust scholarships, mentorship

opportunities, and workforce development programs, NMF nurtures the potential of aspiring health care professionals and emerging researchers from diverse backgrounds.

NMF's commitment goes beyond financial assistance. All programs are designed to address the unique challenges underrepresented students face, fostering community and belonging within the medical field.

By creating pathways for students to gain practical experience and professional connections, NMF ensures the next generation of medical professionals is well-prepared to meet the demands of a diverse and evolving patient population. Workforce development initiatives are tailored to equip underrepresented health care leaders with the skills, knowledge, and experiences necessary to thrive in their careers.

The NMF Diversity in Clinical Trials Research Program is building a more equitable health care landscape by preparing underrepresented emerging investigators to lead clinical trials. Through comprehensive training and mentorship, participants acquire essential skills and insights to spearhead clinical research studies that tackle health care disparities head-on. This innovative training program addresses the glaring underrepresentation of diverse populations participating in clinical trials, ensuring research outcomes are relevant and impactful for all communities.

Ultimately, NMF strives to create a more inclusive health care system representative of all patient populations. By providing equitable access to education and opportunities, it is shaping a future where all communities can benefit from the talents and contributions of a diverse and well-supported health care workforce.

## **NYC HEALTH+ HOSPITALS**

### **NYC Health + Hospitals**

Booth #4115  
New York, New York USA

# Weill Cornell Medicine

Care. Discover. Teach.

## Committed to diversity and equitable care for all

---

Weill Cornell Medicine celebrates our community of varied backgrounds and experiences. These distinct voices enhance our interconnected goals to care, discover, and teach.

We are proud to recruit and nurture diverse students and faculty, develop empowering immersive programs for underrepresented students and support breakthrough research addressing health disparities and equity.

We're changing  
medicine — for the  
community inside and  
outside our walls.
