

Otolaryngology/Head and Neck Surgery Section

Learning Objectives:

After participating in this learning activity, learners will:

1. Identify the elements crucial to providing high-quality otolaryngology care, for example, enhanced recovery protocols.
2. Discuss strategies to design quality and safety tools for otolaryngology care in one's practice (e.g., surgical dashboards).

All scientific sessions throughout the week are open to registered convention participants. However, pre-registration may be required for special workshops.

**Harry Barnes Medical Society
